## **INTERESTS & HIGHLIGHTS:**

I am an Assistant Professor at the College of Information Studies, University of Maryland. I apply historical institutionalism to understand the governance of Information and Communication Technologies (ICTs) across nations, sectors, and contexts. I study top-down and bottom-up governance structures and the way they interact to institutionalize digital practices. I am interested in understanding how come we constantly fail at governing technological harms associated with ICTs in the fields of security, privacy, surveillance, and accountability? I explain the puzzle of how sticky, resistant to change policy institutions come together and interact with the rapid institutionalization of digital practices by private actors. I study structure, process, ideas, and discourse across these institutional environments. I use process-tracing analysis, thematic analysis, fuzzy set qualitative comparative analysis (fsQCA), statistical models, and social network analysis (SNA) to reach my conclusions.

I hold a background in computer and social sciences, with eight years of experience in leading technical cybersecurity positions from the private sector, Israel's Prime Minister's Office, and the Israeli Air-Force [Captain]. I was previously a postdoctoral fellow at Cornell Tech's Digital Life Initiative (DLI), MA Fulbright Scholar at the University of Minnesota, and U.S. Congress Research Fellow in Washington DC. I had completed my BA with honors in Computer Science at the Technion – Israel's Institute of Technology.

I have published peer-reviewed journal articles on U.S. & EU policy processes and institutions that govern cybersecurity, privacy, and national security. I teach about theories of policy and governance, information risk management, the foundations of cybersecurity, ethics & privacy, and societal harms of new media.

## **EDUCATION**

08/2014-08/2019      Ph.D. in Public Policy & Governance, Federmann School of Public Policy and Government, **The Hebrew University of Jerusalem**. Academic Supervisor: Prof. David Levi-Faur.

Dissertation Title: *Explaining Policy Change in Governing Digital Technology Risks: Longitudinal Analysis of US and EU Cybersecurity and Privacy Policy Regimes*

08/2012-08/2014      M.A in Public Policy, Global Policy Concentration, The Humphrey School of Public Affairs, **University of Minnesota**. Academic Supervisor: Prof. Brian J. Atwood. (GPA: 3.95/4.00)

Thesis: *Whistleblowing in the Digital Age – A Comparative Analysis of Whistleblowing Acts in U.S. and Israel.*

10/2002-12/2005      B.A in Computer Science, **Technion – Israel's Institute of Technology** (Dean's list of honors for Scholastic Achievements – top 10% of class).

## RESEARCH EXPERIENCE

- 01/2021-currenet [Assistant Professor](#), College of Information Studies, University of Maryland
- 08/2019-12/2020 Postdoctoral Fellow at the [Digital Life Initiative \(DLI\) in Cornell-Tech](#), Cornell University, New York City, New York, U.S.  
Host: Prof. Helen Nissenbaum  
Research Project Title: *Accountable Information Use – Privacy and Fairness in Autonomous Decision-Making Systems*.
- 04/2016-04/2018 Neubauer Research Fellow at the Institute for National Security Studies (INSS), Tel Aviv University. Cybersecurity Research Program.
- 08/2014-08/2016 Researcher in a multi-disciplinary group, funded by Israel's Ministry of Science, to study the behavior of hackers. Designing and implementing honeypot technologies to capture hackers' behavior.
- 10/2013-08/2014 Research Assistant at the Humphrey School of Public Affairs, University of Minnesota. Working with Prof. Brian Atwood on U.S. institutions.
